CARE AND MAINTENANCE.

The precision mechanism in your watch will provide long-lasting performance when properly cared for.

We recommend taking your watch to an Authorised Retailer / Authorised Service Centre every year for a

check-up, perform ordinary maintenance on all mechanical parts and restore of water-resistance.

We also advise taking your watch to an Authorised Retailer / Authorised Service Centre to change the strap.

Avoid leaving your watch where it is exposed to large temperature variations, humidity, the sun and strong magnetic fields.

Make sure the watch is in adequate conditions for water use/activities.

Remember to rinse the watch after it comes into contact with seawater.

Automatic watches require manual winding following a long period of inactivity.
